

Power Line

Improved safety in model X/XG 4200

– introducing the new safety plug with improved robustness

Powerline gas springs features and benefits:

- Increased safety – the overstroke feature now works for all mounting possibilities
- Simplified servicing without the inner tube groove
- Current repair kit fits both old and new X/XG 4200
- M6 valve replace VG5 valve for X/XG 4200
A new valve tool 3118708 with G1/8" thread for M6 valve is available
- Available since November 2016
