

Power Line

Improved safety in model X/XG 6600

- Introducing the new safety plug with improved robustness

Power Line gas springs features and benefits:

- Safety plug implemented
- Simplified service without the inner tube groove
- Current repair kit fits both old and new X/XG 6600
- M6 valve replace VG5 valve for X/XG 6600
A new valve tool 3118708 with G1/8" thread for M6 valve is available
- Will be phased in starting from 15th January 2018 (w. 3)
