

SPRM Mounts

Increased mounting possibility for Super Compact gas springs CU4

Features and benefits

- Available as a separate mount to an existing CU4 spring or as a complete unit including the gas spring (CU4 SPRM).
- Easy hoseable to a gas link system through any of the 3 side ports
- Prevents rotation.
- No additional adapters are needed.
- Same hole pattern as FFC and RM mounts.
- 10 mm shorter compared with the SP-mount and no additional mount required.
- Available in 4 sizes (CU4 4700 up to and including CU4 18300).
- Included in the global Ford WDX 3562 standard.
